

Joyful bath...

SUN HEATERS

SUN HEATERS

Features

- ◆ Sun is using the state-of-art technology for manufacturing the product in attractive models with tile matching colours.

Quality

- ◆ Inner container is made of 99.75% pure Copper and latest welding technology rendering it leak proof.
- ◆ Tightly packed, using ISO 9002 certified imported resin bonded glass wool, which arrests heat radiation loss by 100% and retain the temperature of water for a long time.
- ◆ Storage models come with ISI Certification.

Safety Features

- ◆ Fitted with ISI marked heating element.
- ◆ Hydraulically tested as per ISI standard at a pressure of 60 N/cm².
- ◆ Double thermostat for extra safety.
- ◆ Non-Return device in inlet.
- ◆ Safety valve is built in, to regulate excess pressure.
- ◆ Fusible plug is used as an additional safety feature incase of double thermostat failing to function.

Rust Free

- ◆ Electrostatically powder coated, protects against corrosion and gives elegant look.

Energy Saving

- ◆ About 35% of energy saving over ISI norms and any other leading brands.

Other Benefits

- ◆ Wide range of capacities like 1 ltr, 6 ltrs, 10 ltrs, 15 ltrs, 25 ltrs & 35 ltrs.
- ◆ Can be fitted vertically even in low ceiling bathrooms and kitchens.
- ◆ Can be fitted horizontal position with little modification.
